JONAH BARRINGTON'S SQUASH

A match consists of the best of three or five games, although a one game option is included in the computer game. Each game consists of 9 points and the player who first reaches 9 points is the winner except that if the score should reach 8-all hand-out may. if he chooses, set the game to 2, in which

a double fault is also called the service

a fault is called, and the server makes

The right to serve is decided by the spin of court. a racquet. In the computer game player 2 (or In practice if the service receiver volley's the the White player) initially serves first. The service before it corsees the short line server continues to serve until he loses a a markers warning would be given and could stroke, when his opponent becomes the lead to disqualification. In the computer

A let is an undecided stroke and the service of ralley in which a let is called shall not count.

THE PLAY

After a good service has been delivered the players return the ball alternately until one or the other fails to make a good return.

A GOOD RETURN

A return is good if the striker, before the ball bounces twice on the floor, returns the ball onto the front wall above the board and in play without allowing the ball to touch the floor after striking it and before reching the

front wall.

STROKE A player wins a stroke if the rules regarding service (see above) are not compiled with by his opponent or is his opponent fails to make a good return of the ball.

to his opponent.

OBSTRUCTION The rules of the International Squash Racquets Federation are complicated and rely totally on the discretion and opinion of the referee. Basically after making a stroke a player must get out of his opponents way as much as possible. If a player, in the referees opinion, has not made every effort to do this the referee will stop play and award a stroke
